Panevėžio statybos trestas, AB

P. Puzino g. 1, LT-35173 Panevėžys, Lithuania

This is a multi-site certificate, additional site(s) are listed on the next page(s)

Bureau Veritas Certification Holding SAS – UK Branch certifies that the Management System of the above organisation has been audited and found to be in accordance with the requirements of the management system standards detailed below

ISO 14001:2015

Scope of certification

Construction and engineering works organization, planning, management and control, construction preparatory works, designing and designing management. Construction technical maintenance and measurements of building engineering systems. General construction works; construction works of special status: mechanical works, including designing, electrotechnics works, including designing. Management of engineering systems.

Contracting services for buildings of special purposes. Buildings: residential and non-residential buildings; engineering structures: transport communications; engineering networks; hydrotechnics structures; other engineering structures; cultural heritage buildings; structures of nuclear energy facilities.

Construction work areas: general construction works; mechanics works (laying of water supply and sewage disposal networks; laying of engineering networks in a trenchless manner; installation of water supply and sewage disposal engineering systems; laying of heat supply networks; mounting of heat generating installations; engineering systems installation of building heating, ventilation and air conditioning networks; laying of oil and gas networks; installation of building gas engineering systems; installation of heating, gas, oil or other fuel technological engineering systems; installation of building internal fire-fighting water supply systems; installation of stationary fire-fighting systems; installation of outdoor fire-fighting water supply networks; installation of smoke and heat control systems; other similar works); electrotechnics works (mounting equipment for electric power supply and distribution; laying of electricity networks (except for low and medium voltage); installation of building electrical engineering systems; installation of process control and automation systems; installations of building remote connections (telecommunications) engineering systems; installation of building security systems, fire safety engineering systems; other similar works.

Original Cycle Start Date: 2001-12-06

Expiry date of previous cycle: NA

Certification / Recertification Audit date: 2021-04-29

Certification / Recertification cycle start date: 2021-05-02

Subject to the continued satisfactory operation of the organization's Management System, this certificate expires on: 2024-05-01

Certificate No.: **LT005554** Rev: **2** Issue date: **2023-01-05**

0008

Certification Body Address: 5th Floor, 66 Prescott Street, London, E1 8HG, United Kingdom

Local Office: Ukmergės g. 369A, LT-12142 Vilnius, Lithuania

Further clarifications regarding the scope and validity of this certificate, and the applicability of the management system requirements, please call: +370 5 233 79 75
